NO ONE dared to our challenge! meet

On June 4th we ran an advertisement in this paper offering to match our new and far more powerful Ferguson Twenty-85 against any other tractor in this area. We stated that the Ferguson Twenty-85 with Ferguson System Implements meets more of the needs of more farmers . . . more of the time . . . than any other equipment. We challenged other dealers to match Ferguson performance on a group of basic farm jobs.

Is no one going to accept our challenge?

We don't like to accept victory by default. But, unless one of our competitors sees fit to accept our challenge, we're forced to believe that they agree with us . . . that they admit the Ferguson Twenty-85 is a better tractor . . . that Ferguson System Implements are better implements!

The whole purpose of this challenge was to give farmers in this community a chance to make a real comparison of the many tractors and implements sold locally. We felt that farmers had a right to expect dealers to prove claims made for their equipment.

Remember, we welcome the competition of any other make or model tractor you may be con-

sidering that meets your farming requirements and that fits your budget.

Ask the dealers of these tractors if they are willing to match their equipment against a Ferguson Twenty-85 with Ferguson System Implements. If they are, let us know. If not, you can be surer than ever, that the new and far more powerful Ferguson Twenty-85 . . . and Ferguson System Implements . . . are "right" for

Regardless of what happens, we're ready to put on a special "Showdown" Demonstration for you -right on your own farm.

THOSE DISAPPEARING THERMOMETERS

THOSE DISAPPEARING THERMOMETERS
It is within the memory of most of us when practically were jumaness establishment on Kent St. had a thermometer of one kind or another business considered the strength of the conduct of the conduct

A DIVIDENO
It was interesting to note last week that the
Ottario County Medical Co-operative had concluded
a successful years bunnies and work level or the
property of the county of the county of the county of the
peribers. This is the sort of thing one likes to hear
about in these days when the accent has been on
forceasing rates for the various hospital plans and
concluded hearithst acheme. On the one hand it would socialized hospital schemes. On the one mann it would appear that the subscriber to the co-operative medical eservices plan is provided with medical attention on a group basis but is encouraged not to make unnecessary use thereof by paying dividends out of savings effected on the year's operation. In the case of socialized hospital plans or those on a non-co-operative basis the members appear to be enouraged to make wasteful use of the service to the detriment of the subscriber who in turn must pay ever-increasing rates for the extravagant demands of either himself or others par-

dicipating.

There is something appealing about the co-opera-tive arrangement. In this instance it appears that the subscribers to this plan are encouraged to insure them-selves against staggering medical bills but are also encouraged to keep the cost of the service down by making only necessary demands upon it. Thus, if the form of a division of the service down is of form of a division of the sort happening, under any other hospitalization and any other hospitalization and any any other hospitalization and any other hospitalization and any any other hospitalization plan?

GENEROUS WITH OTHER PEOPLE'S MONEY

Only three members of the Dominion House of Commons at Ottawa had the courage to oppose the pension plan proposed for MP's and approved by the House earlier this week. All the others, including district members, were in favour of helping themselves to another since of special privileges to be cut from the pie baked with taxpayer's dollars . . . They were perfectly agreeable to saddle the taxpayer with ad-ditional burdens that they might enloy security over and above the people whose interests they are sup-posedly pledged to protect. This latest move by parliamentarians is in the

This states move by parlamentarians is in the same category as the other flagrant special privilege awarded themselves in the matter of income tax exemption. (They voted themselves \$2,000 additional tax-free revenue over and above that granted the originary citizen of the nation.) This too was subjected for the contraction, once of it coming from the property weak opposition, none of it coming from the polecular representation—none that is that ever appeared because the contraction of the contraction o in Hansard, official publication covering parliam proceedings.

How long will the people of Canada continue to

send representatives to Ottawa who persist in voting for new, and upholding old, special privileges?

AND THEN THE RAIN CAME . . .

Last week the prophets of doom, disaster and dire circumstances were busy making the people of Ontario feel badly about the agricultural prospects of the region. Led by Ontario's Dept. of Agriculture, several region. Led by untario s tept, of Agricuture, several in the industry made predictions of rising food prices, crop shortages (particularly in fruits), and other foresats of a disheartening nature. There appeared, according to these gentlemen, to be nothing good under the control of the control of the control of the several of the control of the cont

collection to these gentlemen, to be nothing good under cording to these gentlemen, to be nothing good under cording to the same poole who made the predictions of a gloomy nature will blossom forth with such exeming their blundering prophesies of a few days provious, the prophesies they made without reckoning on the intervention of a full Providence, the prophesies they made without reckoning on the intervention of a full Providence they recommend the providence of a full Providence. The prophesies will be a little searcer—speciallem, some fruits may be a little searcer—speciallem to the dry spell—the hay crop may be a little lighter and there may be a unmber of other deficiencies affectively speaking but it is a pretty safe bet that there will still be fots to go around.

Laugh It Off...

The minister returned the used car to the dealer and was promptly asked, "What's the matter, Parson. Can't you run it?"

The sharp reply: "Not if I want to stay in the ministry."—Labor Leader

OTHERS SAY

Walking

Aged Gentleman Feels People in Danger of Losing
Use of Their Legs, They Use Them So Little

(From the Montreal Gazette)
An Old Montrealer said the other day that people are in danger of losing the use of their legs. He still has the use of his, and at a very advanced age. He doubts whether younger generations will be able to

equal bim.

When the neighbors say they saw him going out for a walk the other day, he replies that he goes out for a walk several times a day. And it is true. He has his morning walk, his afternoon walk and his evening walk.

to Max worries this old gentleman is that he seems to be walking more than anybody she. All the younger people is knows do not seem to walk at all. They rich crushed to death in a streetcar. Or all the properties of the street of the street

slow. But in keeping off their feet as much as pos-sible, they may not only be damaging their health: they may be missing one of the greatest pleasures and

Now that summer is back again and it is good to be out of doors, perhaps the art of walking might be re-discovered. In the longer summer evenings, or on the longer summer week-ends, it might be a good thing to try a long walk and find out what it feels like to move upon one's own legs.

QUID PRO QUO
When Bari Alexander, former Governor-General
and now Britain's Minister of Defence, was in Ottawa
to the gifts were for his wife from Ottawa women and
women in other parts of Canada. It was a remarkable
present—about 15,000 worth of tiems ranging from
a deep-freeze unit to a tonaster. We noticed in the
report of the presentation this remarkable sequence

"Mrs. Douglas Abbott, wife of the finance ster, speaking on behalf off the special Lady Alexander Gift Fund Committee, noted that the Earl's wife had said she did not want an electric iron. In its place, the women of Canada decided to give Canada's former Governor-General a long

olsying combination record-player and radio to help him in his square-dancing back home." neep min in his square-dancing back home." Anytime anybody wants to give us a combination record-player and radio in place of an electric tone, we shall be delighted. Not that we do not value to electric from, but fie to utility when an instrument of the surfs can be ladd. How nice of the women of the surfs can be ladd. How nice of the women of the surfs can be ladd. How nice of the women to thing: usually not a drop; a sing the general some limit; usually not a drop; and the general lade on him. Incident!—A take, A beyonder, solds are

Incidently, Lady Alexander was given an iron, steam one.—Peterborough Examiner.

WILLIAM HAD AN IDEA

WILLIAM HAD AN IDEA

We notice that the City of London has finally
obtained the services of four men, who volunteered to
accept what has been described as the "most unsatisfactory jobs in the British Commonwelath."

The job: Ale conner to the City of London. The pay: Ten pounds per year

The duties: None.

The appointment of an ale conner in London dates back to the time of William the Norman conquered England. At that time Englishmen complained of the

England. At that time Boglishmen complained of the untility of beer and they registered this complaint with William. A man of apparent action, William appointed Official "alse conners" whose duty, would be to test the ale being dispensed in the London pulse of that cra. The story goes that the ale conners dressed themselves in leather pants and if, after stitting on a wooder that where been had been spilled, the leather did not alick to the table, the beer was declared until for the contraction of the

In modern London, the ale conner is not vested with such broad polvers. In fact, the Job has shrunk until there is now absolutely nothing to do. Trusk causes the frustrations and makes the post difficult

Perhaps here we could emulate William the Norman's idea and put a conner to work on the coffee sold in some establishments. Were some coffee vendors forced to drink the black liquid that is supposed to pass for coffee the quality would doubtless improve, -Ontario Intelligencer

LET ALL COMBINES BE INCLUDED

Parliament has undertaken the task of revising the Combines Investigation Act; and we wish it success in its undertaking.

ess in its undertaking.

We hope it will broaden the Act to cover all
ombines that operate in restraint of trade, including
bor, farmer, and professional organizations.

There are squad reasons for legislation to protect

the public from exactions of combines among manufacturers, agents, merchants, etc.

If there are any sound reasons for exempting labor unions, farm organizations, or professional as-sociations from the provisions of the Act we have never heard of them.

never heard of them.

Parliament should include all such organizations in its study of the proposed legislation, but that is go much to expect with pressure groups constantly lobbying the balls in the House of Commons.

WEDNESDAY, JULY 8th, 1952

One point in the British Labor party's attack upon Lord Alexander for what he said to the Canada Club

in London on Dominion Day should be noted by Cana-dians, and specifically by Canadian cabinet ministers.

"It was disrespectful of the House, form Prime Minister Attlee said, for the Defence Minister to tell outsiders something that he did not feel free to tell Parliament."

Britons are touchy on this point; touchy on the point that cabinet ministers must make statements of policy or of government information to Parlament —

ake their statements as responsible ministers in a where the statements may be checked, properly

ch a misdemeanor against Parliament to go pracsuch a misdemeanor against Parliament to go practically by default.

A good thing it would be for this country if it could come more to the British way — match its talk about loyalty to a parliamentary system with a more vigorous concern for Parliament's rights and authority.

Atomic artillery will be ready for use shortly. Big-scale production of the shell casings has already begun in a plant in the Chicago area. The projectiles

are roughly eleven inches in diameter and several feet

are roughly eleven inches in diameter and several feet long. They will be ready for action in Korea but won't be used without express authorization from the President. The prevailing view in top military circles is that it would be a mistake to use atomic weapons there except perhaps to avert a disaster.

WHAT PATIENT FEELS FOR DOCTOR
A doctor means security. He is deeply rooted in
people's needs. He is as basic in their life as food,
shelter and clothing. The doctor is the mainstay by
night against the terror of a child suddenly ill. He
is the solid-rock assurance to the couple about the
come parents. He is assurance for the fright that
gets into man and woman when their bodies assert
their mortality by breaking down. The doctor is hope
and he is strength. Unspoken usually, yet this is what
the patient feels for the doctor—Regina Leader Post

Judge: "I'm sorry, but I can't issue a marriage license until you have properly filled out your form." Girl: "Listen if my boy friend doesn't care what business is it of yours?"—Labor Leader

Laugh It Off...

ln Canada, unfortunately, we are no erned with this obligation of ministers, or are beco cerned with this obligation of ministers, or are securing less concerned with it. Thus in recent months we have had the spectacle of one of our cabinet ministers not merely going outside of Parisiment to make an important statement of Government policy but actually going to another country to make it, plus the further and more deplorable spectacle of the press permitting

"Here's Character"

Here is the mandevirtung of the born satesman, at sease with people and always on the go." The open right slant of the writing reveals his extroverted personality and there is energy and drive in the heavy pressure and speed with which the words are written. The large capital 'I' shows an oversensitive pride. It also suggests

You will usually find this type of writer in the centre of social gatherings, talking to everyone and making everyone feel at home, but the sharp points of the capital 'M' show that advantage can't be taken of this person.

IMPORTANT WORK 10 BE 20082

The Outsilo Motor League used to be regarded as the principal agency for placing road markers indicating the direction to lesser known villages in the province and up until recent years this important work was carried on most efficiently. Latterly, however, there seems to have been a letting-up on this service. there seems to have oeen a tetting-up on this service with the result that many small communities are never discovered now except by accident. This is an un-fortunate state of affairs because motorists are never entirely sure they are going to reach some of these out-of-the-way points when they start out to visit

There would appear to be important work to be one throughout the province in route identification. Valuable ground work has been done by the Ontario Motor League and, providing undue lapse in replacement and maintenance is not permitted, the task of putting place indicators on a useful scale again should not be extremely difficult.

not be extremely difficult.

Another thing which probably puzzles the average motorists about many of the smaller villages and hazmeles in the aboute lack of identification on arrival at some of them. There are instances of this even no so-called povincial highways. What could be worse than to have adequate directional signs only to be unable to identify the unfaillance community upon

Some may say to this: "Ask the people in the district?" And that is a good suggestion except where one happens to run into people who are just about as much of a stranger as oneself. It is surprising sometimes how difficult it is to obtain clear information as to one's point of destination, even from people

THE SPEED LIMIT IS NOT BEING OBSERVED

IS NOT BEING OBSERVED
Ontario's speed luint, it is reasonably safe to say,
means nobling but a set of figures on a highway marker
to a good many motorists. - They just simply are
not observing the prescribed 50 miles per bour limit set
by the Outario Dept. of Highways. Proof of this obtained voluntarily from a great number of motorists
who are quite frank about the speed at which they drive except when in conversation with a highway

The thing about the excessive speed at which many motorists are driving nowadays is that they do not realize the extent to which they are jeopardizing their realize the extent to which they are jeopardizing their lives. They do not take into consideration the construction of their cars not their ability to withstand a collision or upset. The newer cars are, admittedly, a collision or upset. The newer cars are, admittedly, improvements over the older makes. They can also the activate faster with less effort but this does not mean they are of sturdler construction and able to withstand the additional hazards which higher speeds present. The fact is that the majority of modern cars are in pretty bad shape when they emerge from an accident. The pretty had shape when they emerge from an accident which they are modded is twisted out of shape without great effort.

These things present a need for revision of On-tario's speed limit and a return to something resembling sanity in the operation of motor cars. Neither the cars nor the people who drive them are able to with-

Do you know that we can make your car steer as good as when it left the factory? and also increase the life of your tires! When you think of steering problems. DIAL 3545, or drive into

MANLEY MOTORS

ALL BROOKE'S CHILLUN . . .
Between April 16, 1951, and February 29, 1952, Between April 16, 1901, and recruary 26, 1902, the Defense Department ordered 1,403,407 pairs of footwear. This came to approximately thirteen pairs for each man on active service; approximately nine pairs, if the reserve forces are included.

pairs. If the reserve forces are included.

Women members of the services are doing even better. It was duclosed in the House of Commons has week that between April 1, 1651, and April 30, 1552, the Defense Department ordered 1.34 men of women s shoes. Since there are the service of women is thought the service of women of the service of the service

But shoes are set the only things that merit and the services are the services are concerned. Since the services are concerned. Since the services are concerned. Since the services are the pear, the Defense Department has ordered alwaments is ackets to the tune of \$208.500; and CWAC raincoasts to the tune of \$348.555. How much it costs to make as airroments lacket, we do not know. But taking \$20 as a reasonable figure, the comes to yet of the comes to yet of the comes who will be the comes were close to 12.000.

The Defense Departments are used of all this fail to the comes very close to 12.000.

The Defense Departments are used of all this fail to the comes very close to 12.000.

The Defense Departments are used of all this is all the comes very close to 12.000.

The Defense Departments are used as the control of the c But shoes are not the only things that m

Division of the Royal Canadian Air Force.

If we read the raincoat and picket orders correctly,
the Defense Department is prepared at any moment.

to take more than 10,000 women in each service. As
for the aboe order, we cannot tell what that portends.

It all depends on how many pairs of aboes a Canadian
servicewoman is supposed to have. In Russia, now,
it would be suippe. An order for 117,500 pairs of shoes
would mean only one thing—that the Government
proposed to entire 117,800 women.—Globe * Mail

"AM I BLUE?"

The Reds have the blues—or Paris intends they shall. Borrowing the device used in certain banks whereby tellers are able to squirt bank robbers with tell-tale indelible blue dye, the French government has announced that future rioters will be sprayed by the police with a blue they will find almost impossible to

wash off.

This, you will see, is quite different from the blue
used by handresses to make their dirty timen whiter,
through the vession of effect expresentatives of what
Marsian calls the "feudal classes", It suggests rather
the war plant of the ancient Strions — though, we
suspect, this blue will be worn with a difference, like
Hambet's rue. It might also be called a forget-me-

hearted pleasantries lie the grim facts of cold war on the street level. Yet because men struggle blindly shall we therefore allow ourselves to be sicklied o'er with a melancholy (not to say "blue") cast of thought? aris forfend! The dye is not yet cast. This is a rese laugh of another color.

—Christian Science Monitor

SAFE HOLIDAY SEASON
With vacation days just ahead, this is a good time to think about summer safety and perhaps to pass the word along to the young folks so that they can get through the hollday period without mishap.

A few accidents possibly are unavoidable. Most of them, however, could be averted by those old standbys: Care, Courtesy and Common Sense.

The three C's are usually thought of in connection with preventing highway accidents. Safety authorities generally endorse them as a good basis for keeping down traffic smasbes that can cost dearly in life and

However, they can be applied also to such other

summer activities as boating, swimming or climbing.

Most summer deaths and injuries can be traced directly to thoughtleasness or recklessness. Standing up or changing places in small boats is asking for trouble. Speeding and stunting in motorboats can endanger both the boats' occupants and other persons

Swimmers still go in the water too soon after beyond the point from which they can return safely Safety advisers frown on all these practices.

Still good is the familiar advice against exercising too strequously during the first few days of vacation, against trying to get a dark tan in one day and winding up with sunburn, against overloading boats, against diving into water that may be shallow or filled with rocks and against drinking water if there is a possibility It is impure.

Vacations are too short for anything but pure

that pays you more

Only the ALI-CROP Harvester has oir blast separation. Between cylinder and strawrack, shelled grain and straw are whired upward in a high arcing blast of air. Kernels are thrown free from the lightner straw and chaff, separating much of the material even before it reaches the big ten-foot strawrack.

reaches the big ten-foot strawrack.

This extra separating action saves more grain, beans and seeds — puts more in the bin and more in your pocket. It's another reason why a New ALL-CROP Harvester belongs first on your list for '52.

SURFEIT OF COMICS
Dr. T. H. W. Martin, an inspector of public schools Dr. T. H. W. Martin, an impactor of public schools for Toronto, media an interesting suggestion recently to the Ontario Urban and Rural Tratece's Association. Interest of training to keep romite books from children. See so, the second of the contract of the second training the sufficient for all pass strongth a stage where they was seen to thing, and the more they get of it, and to see the second of the second training the soon of the second training the soon of the second training the second to see it is to give them as importance and an attraction which they do not deserve.

to get is to give them an importance and an attraction which they do not deserve.

We can appreciate the hesitation of parents to Globy Dr. Marrius advice, good though we think it is. We have looked at quie a large some "de entitlement," and the product and a large some "de entitlement, false in feeling, and corrupt. But children committee manage to get hold of reading which has committee manage to get hold of reading which has committee manage to get hold of reading which has committee find ways of sautstying their wants. How many there is not a second to the same their tank of the same their tank of their tank of their tank of much that is shably, or an about the same their tank of their tank of much that is shably of their tank of

COLOR BAN FOR IRISH PIGS

Pigs in the Republic of Ireland must now be all white, it has been officially announced. It will in future be an offence to keep other than a white pig. future oe an owners to seep other than a white pis-Farmers have had notice of the intentions of the Min-ister of Agriculture since last July, when the use of colored pigs for breeding was prohibited. It is considered that the white pig gives better bacon and pork.—London Times

BAGPIPES DEFLATED

We Wonna believe this, Mac, but bagpipes were invented in the highlands of central Italy, and not in

College of Glagow.

His research shows that in 1515, a scottish tournst.

Please and a bappine band made up of the family of Bahasias del Bruno. He invited them to Scothaid over they changed their name to McKirmona and rakind the barpine mor a national inner to McKirmona and rakind the barpine mor a national inner to McKirmona over the tracticing to go to war if a group of both one over threatening to go to war if a group of both one over threatening to go to war if a group of bush dependent of the made their town as baspiners. Who can tell' Maybe they are some buroum American girls of Italian desent coming out of the state where the tall comprows.—Detroit Pree Press

OTHERS SAY

THE ADVANTAGE OF BEING A PIRATE

THE ADVANTAGE OF BEING A PIRATE
Despite a conformable notion in these parts of
the world that princy has exaced to exist except
in boys worse of other days and worver actions on
wall Street or younger woive, antice around the
corner drug story, the captain of the schoolar reservation of the control of the

GLITTERING PHRASES

CLITERING PHRASES
The current crop of presidential candidates includes some very fair phrasemakers. There was GenEssenbower's comment that the Truman administration was nbred ingrown and inept." And Senator
Kefauver's reference to Essenbower's "straight-fromthe shoulder generalities."
But for compressing the truth into neat capsules,
no other has equalled Sen. Kerr. Quizzed about Truman's record, he said. "Truman's record is what it is."
he conversated that on gas-rate regulation, he castantif'. These messages came from those who sen

"Those messages came from those who sent

There we have a knack for interpreting the fact that has hardly been seen since Calvin Coolidge Informed the world that when large numbers of people were unable to find jobs, unemployment resulted.

—Chicago Dally News
THE STRAP MIGHT WORK

THE STRAP MIGHT WORK

How far is practical to go in the "humane" treatment of pruce inmates without the inmates mitating hindness for weakness? This queerion stems from the weekend rot at the Guelph Reformatory where damage estimated at more than \$200,000 was caused by prisoners who, prison guards ellege, were "mob-coddled" under existing reformatory regulations. Since Major John Foote became head of Ontario penal institutions, the strap has caesage to be used as a weapon to maintain discipline, except when much treatment at the strap was the only effective means of maintaining discipline and when the strap treatment was removed, the prisoners became more insubordinate. This insubordination reached its peak in a full-scale riot.

ate. This insubordination reached its peak in a full-scale rite.

The scale rite.

The scale rite and the sc

"SUNNY, BLACK WEEKENDS"

"SUNNY. BLACK WEEKENDS"

Dr. Smite Lawson, chief coroner for Ontario,
coined a grum paradoxical phrase the other day when he
appealed for a halt to "sunny, back weekends."

Le was referring of course, to the lethal combination of hot weather, water and carclesaness which
already resulted in a fearful drowning tell in Ontario
areadon, in fact, that toll "is reaching traffic accident levels," Dr. Lawson as the

Learn to swimmer.

Learn to swim. teach the children to swim. Fine.

Learn to swim. teach the children to swim. Fine.

Teach the proper handling of small hours. Excellent advise too. But both accomplishments from but and the defence against death which lurks in every holy of water, great or small.

The swimst be supplemented with a keen awarenesses—involved to them must be added a deep-rooted respect for water and the certains know. The swimster is the supplemented with the swimster is the supplemented with the swimster in the swimster

A MATTER OF QUANTITY AND PRICE

A MATTER OF GUANTITY AND PRICE
A centumparry commenting on the return of the
fire-cent ice cream cose which will be made possible
by reducing the butterfat content in line cream's manu-facture, raises another point in connection with this
popular treat which has long purated coassumer. This
concerns the difference in the quantity of ice cream
dapensed by surface which a selection of the discounties of the
which appear to be the same in every other raspect.
Before the new lower butterfat content lee cream
hove into view t was possible to get a much better

hove into view it was possible to get a much better deal in ice cream cones by patronizing certain vendors. The difference in quantity dispensed by these favored dealers ranged from slightly more than average—about a scoop and quarte—to as much as twice the amount received from the average dealer. Naturally the eaters of ice cream soon started to shop around for larger rations because it is only human nature to try and get the most for one's money it any purchase of a grandardized product. What always obtained lakes people though, was why there about he such variation. dealers ranged from slightly more than average-abo

With ice cream bricks the situation is re-With ice cream bricks the situation is reversed because while severy brick is supposed to contain a full pint the price has been found to be greatly at various the price has been found to be greatly at various they a brick of good ice cream at Dunaford for up to fen cents a brick less than at Lindsay. However, while the quantity of ice cream dispensed in cones varies greatly and the price of bricks is flexible, these are bealthy sligas for they represent trade without effective the customer having the right to buy to

PARKING WITH MUSIC

A Chicago bus company is reported to be spending A Chicago bus company is reported to be spending a large sum of money on new fare boxes. One of the features of the new boxes will be three tones. When a passenger drope is a nickel, the box will respond with a melodious signal. The tone will be even more melodious when a dime is dropped. But when a passager, accidently or otherwise, drops a slug in a passager, accidently or otherwise, drops a slug in the response will be a found, raziberry-tone sound.

This seems like a pleasant way of transacting business which might well be extended to other fields, as for example, parking meters. It would brighten up the city no end of the meters were to play a few bars of "Pennies from Heaven" for short term parkers and "One Hour With You" for those who spring for a whole

Those who try to feed the machines slugs might inose who try to feed the machines slugs might hesitate if they knew the meter was all set to break into a loud version of "Clap Hands, Here Comes Charlie MacIver."—Winnipeg Tribune

SHUR-GAIN FERTILIZER

Lindsay Flour & Feed wish to draw to the at-tention of their farmer friends, the fact that now is the proper time to order the requirements of SHUR-GAIN fertilizer for the fall grain.

Fall wheat is seldom sown without the use of fertilizers, as it has proven to be a sound practice.

- by feeding the soil, the soil will feed you better. Lindsay Flour & Feed urge you now to Phone your order to their office, or bring your order in within the next few days in order to avoid a last minute rush, also avoid having to sow any green fertilizer.

ARE THE PEOPLE'S WISHES TO BE FLOUTED ?

TO BE FLOUTED?

During the past week or ten days Lindsay people have been conserved with a decision by Town Council which authorized the construction of a service station on Kent Street at Albert, As a result of their conserve in special meeting of Council was called to hear these who opposed the move. At this meeting strong protests were guitarted by responsible citizens and representations were made to have Council existence and the council meeting only one measure of Council Departy-reserve A. E. Hickstock the position that the people's wishes should be represented.

There comes a time when an aroused chazenry must take strong action to counteract heing ridder over roughshod by their governing body. Has that time now come for Lindsay people?

OTHERS SAY

YOU MAY BE AN ANTHROPOMETRIST

A man who displays an usuasal interest in the
shapes of women is not necessarily a monser to be
avaisable by the police; he may simply be an anthropometrist that is, a student of the average height
stee and weight of the various races of the world. We
have been reading about an anthropometrist named
from the production of the production thome, we have a magnitude who has measured more than 7,000 of his countrywomen. He finds that while makers of ready-to-wear clothing have assumed for some years that the average woman is 5% tall, she reads nearer 54", and forty per cent. of women in the United Kingdom are smaller than 5'3".

we use United Kingdom are smaller than 52°.

This is of interest because of the widespread belifer that the people of Europe and North America are
numels higger than their aneaction. This is partly a
much bigger than their aneaction. This is partly
but it seems that we are not, on the average, as higser we think. The notion that the modern grid is bigger than her mother, and much higger than her grandmother, rest in some degree upon the fact ther
nother and grandmother did not wear such high helals,
or wear them so often: when the modern grid they
fer shoes off, she is often rather a small person.

Anthropometry has been applied to the women of

her shoes off, she is often rather a small person.
Anthropometry has been applied to the women of
the U.S.A., and they also appear to be much shorter,
much shorter in the leg, and much wider around the
hips. Fashion models are chosen among tall, sim
grids because they look best in stylink clothes, but
they are not representative of average womanhood.
Anthropometry is applied to men, as well, but

common a thousand years ago as they are today

"ROGUE'S PLAYGROUND"

"ROCUE'S PLAYGROUND"

The British House of Commons has passed an amendment to its libel laws to eliminate the "playground for rogues" — the loopholes that permit unserupulous persons to seek damages on charges of

personan organization.
The measure, which was approved by all parties,
enables publishers to avoid court action for unintentional defamation by publishing a correction or apolity,
and having the apology accepted.
If the apology is not accepted by the plaintiff, the
fact that it was offered will be considered a valid
defence in court.

defence in court.

Under the existing libel law in Britain, it is not considered a defence for the paper to offer an apology. The publisher must prove that the published article was not defamatory, or that it was justified or privileged.—Sudbury Dally Star

A WOMAN SAID THAT!

A WOMAN SAID THAT!

It is well for the survival of the male sex that it was a woman who suggested Canadian housewives are not trained for their position in the nation's economina rocart interview. Mrs. H. E. Vautelet, past president of the Quebec English branch of the Canadian

president of the Quebec English branch of the Canadian Association of Consumers, reasoned that eighty per cent of the nation's buying is done by women. This vast buying power, the past president said, resulted in housewives being able to make or break an industry and that they were not trained to realize the ramifications of the effect their purse has on the nation's

Vautelet declared that the housewives influ Mrs. Vauteset declared that the nousewives influ-ence affected all phases of industry, including stell for stoves and other appliances, to refrigerator cars used by railways to rush fresh fruit and vegetables to her table. Unconscloue of the demands they are placing on available supplies, housewives contribute clably for shortages in vital defence needs, she

Mrs. Vautelet contended that training of house wives in proper consumer education is the most im-portant form of adult education today.

-Ontario Intelligencer

HIGHWAY MENACES SHOULD BE REMOVED

HIGHWAY MENACES SHOULD BE REMOVED
A Toronto magnitude has recommended on the
A Toronto magnitude has recommended for the
annex of the Bosen convicted for three within the
stance of six months for driving while "impared" by
alexable, be cancelled for a lifetime in order to keep
this individual off of the road.
Events beeding up to the magnitude's recommendation are increasing. On his first offence, the
even shilled for 16 days. The just term was domited
upon his third conviction. He is now serving another
20 days for his heater conviction.
In this instance it is hoped that the Minister of
lightways will asceed to the magnituates recommendation. The drout driver is the greatest persondation. The drout driver is the greatest persondation. The drout driver is the greatest persondation. Editorial STEPS IN THE RIGHT DIRECTION

DIAL 2114 or 2115 WEDNESDAY, JULY 30th, 1962

STEPS IN THE RIGHT DIRECTION
Linday people who have occasion to pass Victoria.
Park during the course of the day's travels probably
have nood with interest the increasing use being made
of the park by tourists and others. This increased
purtounge is particularly noticeable during the lunch
and supper or dinner periods. The accommodation
provided by the town's Parks Board for pietic purposes is daily becoming more popular with transient
diners.

The Parks Board has made a commendable effort in the direction of improving the town's parks and adding to their facilities for purposes such as outlined above. This consideration for the welfare of the traveling public is obviously filling a need which has long been neglected by Lindsay, a town which has always

made an effort to rate itself as a tourist centre or dispersement point. While there are recognized limits to services such as this, they have not been reached in this town and the furtherance of such accommoda-

The development along the Scugog River between Wellington and Lindsay Streets offers wonderful op-portunities for improvement as a tourist refreshment

The motor entrance to this park-site is some what of a drawback but there is no doubt but that it could be greatly improved upon. At some future date consideration might also be given to feacing or provid-

a railing along the river bank for child safety

HANSARO'S BICHENARY
England has been celebrating in a mild way the
bleentenary of the birth of Luke Hansard, the printer
who, with his family, undernook to publish the journ'als and debates of the House of Commons at Westminster. It was a project not without its hazards,
for the Hansards often came under the displeasure of

Tower of London for infringing its privileges.

Writing in the Spectator Harold Nicolson dis-courses on the love the English have for remembering the origins of things. He recites how the Hansard family published the Commons debates from 1803 to

1891, how H. M Stationery Office took over the job officially in 1909, and, lastly and surprisingly, how the

House in 1943 by unanimous vote accepted a recor

mendation to restore the historic name to the daily

Even more surprisingly, Mr. Nicolson tells how some of the Dominions, none of which ever knew a Hansard, always use the name. Here in Canada, the

record is known as the "House of Commons Debates-Official Record." But nobody ever calls it anything but Hansard, nor ever will.

"Surely." writes Mr. Nicolson, "this is an excellent illustration of our affection, in spite of the social revolution that we have undergone, for ancient nomen-clature and sentimental associations!"

A Kansus cyclone hit a farm house just before dawn one morning. It lifted the roof off, picked up the bed on which the farmer and his wife slept and sel it down gently in the back yard.

Mary, ber husuana sam, "we're not nur.

Mary continued to cry. "I'm not scared," she responded between sobs. "I'm just happy 'cause this is the first time in 14 years we've been out together."

The wife was crying softly. "Don't be scared, y," her husband said, "we're not hurt."

Laugh It Off...

-Montreal Star

CAREER OPPORTUNITY

a representative for Lindsay and surrounding territory Thorough training and sales assistance will be provided. No previous sales experience is necessary but average education and executive ability is essential. Preference will be given to a married man between 27 and 40 years of age who is genuinely ambitious and anxious to get ahead. The position offers unusual opportunities for advancement and better than average earnings, on a salary and commission basis, with group insur-ance and pension benefits. The man we want should be well known and regarded in the area.

the tie that bunds.

Sir Alexander Maxwell, writing in the "British
Traveller," an eight-page newspaper circulated by the
visiting buses, throws some light on the background
of London's bus service and the purpose of the tour.

He had this to say:

"During the course of a day in London, England, buses of the London Transport Executive shuttle 12, 500,000 people to and from their homes, factories, restaurants and place a single day, London's durable homes and the same state of couples a single day, London's durable homes and their says serve showed as many people as the same state of the same s

to great Canadas values and a cultural sense, to Great Britain. As unofficial ambassadors of goodwill, the London double-deckers say, in effect, "We've en through good times and bad together. Let's keep

During the Second World War, the part Great "During the Second World War, the part Great Plitain played in the defence of freedom was para-mount. All that is history, now. But the ecotomic consequences of Britain's service, which was a service played by the new methods of paring her way. A Nation of Shop-keepers refuses to picture itself as the economic de-pendent of other areas of the world, because it was only swaterialy that the shoes were full to the point heart of the world.

"A major share of the work now being done to redress Britain's economic balance has been under-taken by the British Travel Association under the directhe bits energetic chairman, Sir Alexander Maxwell.
This non-profit, government-sponsored organization
was formed long before the Second World War, but after 1945 its activities became greatly intensified. Tourist carnings grew steadily in the years that followed, and formed one of the most important sources

of Britain's dollar income.

"The sums Canadians have spent in Britain sin
the war are as incalculable as British pageantry, tr dition, and native friendliness, all offered to the visitor in the spirit of genuine welcome. Canadians have travelled in Great Britain, and will continue to do so as Commonwealth partners, in the knowledge that Great Britain's gain is equally theirs."

AND NOW FOR A NICE, NOISY WEEKEND

There was a time when people living in cities and towns, where noise and confusion prevailed all week could head for the cottage in the summer and find a real measure of quiet and contentment at the weekend. This blissful bit of escapism is now just a memory thanks to the introduction of outboard motornowered watercraft seaplanes rowdy teen-agers and

the would-be escapist anything but rest. In fact he'll be lucky if he can even get to sleep at night during the height of the tourist season. He may find that about the best he can do is snatch forty-winks in between the time teen-agers go to bed and fishing out-boards come in off the lake and the time the speeders and stunters take their outboards out to demonstrate their prowess. Even this brief interlude of relative quiet may be deprived the summertime escapist if there happens to be an aggressive dog in the neighbor-

Yes, it would seem that the time when th shore cabin was the place to go in search of peace, quiet and contentment is fast becoming a thing of the past. The smart seekers of weekend real today appear to be those who stay at home in the quiet of the clties and towns which bave been deserted by

TO WHOM SHALL THE CREDIT'GO ?

Ealier this year the Ontario Dept. of Lands and Forests announced that an estimated \$10,000 was being set aside this summer to study the troublesome formations in Sturgeon and other Kawartha Lakes. Some weeks ago the studies were commen with parties cruising downstream from Lindsay gather first hand information on the phenomenon. What progress, if any, was made by the government men has not been reported but it would seem they picked a bad year to tackle the problem—at least not as favor able, up until the present moment, as in former years

ance, up that the present models as a former years.

In the case of Sturgeon Lake, water conditions have never appeared better. Only on one or two occasions has any trace of the green substance which made bathing in this lake unappealing been noted this year. The fact stands out that barring some sudden change the water in this lake seems to be in A-1 con-

To whom shall the credit for this change go? To whom shall the creon to the change go?

Has the now-functioning sewage disposal plant at Lindsay anything to do with it or must all the credit go to Mother Nature? This matter should be actitled before some political faction lays claim to hav--IRR achieved a miracle.

OTHERS SAY

PENSIONS MAKE A DIFFERENCE

Pensions are a wonderful thing!

No wonder the M.P.'s were so fast in voting them

selves one. Now qualified for full pension are a group of 12 in-cluding Earl Rowe, Gordon Graydon, Joe Harris and Hughes Cleaver. When the next session of Parliament meets, there will be 87 qualified for some pension. But, now it is reported that some MP-2s who thought of retiring at the next election are recon-sistering. One more round and some will qualify for-sidering the second of the second of the second of the Members first elected in 1540 could put up \$4,543 next.

lovember and qualify immediately for a life pension

108 NEW INDUSTRIES IN TWO YEARS

108 NEW INDUSTRIES IN TWO YEARS
Foreign industrialists have established 108 new
industries in Ontario in the last two years a return
tabled in the House of Commons shows. This figure is
greater than in any other province.
The return shows that 71 industries were estab-

lished in Quebec: 5 in New(oundland; 3 in Alberta; 3 in British Columbia; 2 in Nova Scotia and 1 in New

The industries range from manufacturing and chemicals to food beverages and paper and miscellaneous products, and they were established mainly by United Kingdom, German and Czechoslovakian inter-

nizations or plants in Ontario is estimated in ex-of 13,500.—The Labour Leader

A DEEP SEATED DISLIKE

A DEEP SEATED DISLIKE
A story told by King George V to President Roosevelt is quoted in "The Roosevelt Letters." After Juliand the King talked to a wounded sallor who had portraits of the royal family tattooed on his chest,

"That ain't the 'alf of it, Your Majesty," said the
A.B. "You should see me behind. I am sitting on the
Kaiser and Von Hindenburg."—Answers, London, Eng.

NO SPIES WANTED

In an attempt to correct traffic abuses, the city of Sudbury has established a "T-Men" organization composed of 30 civilians who will note traffic violations and pass the word along to police on stamped and addressed cards. Identity of the "T-Men" will be known

only to one man in the city,

Although different in degree but identical in principle, this idea smacks of Hitler whose rise to infamy cipie, this loca stracks of litter whose rise to intarpy stemmed partly from his secret organizations which often pitted members of the same family against each other. No conversation, even within a family group, was sacred to Hitler's eavesdroppers.

No, we cannot go along with the Sudbury plan. The lesser evil would be to permit the occasional traf-fic violation rather than follow the pattern of Hitler

and the Ku Klux Klan with their system of spies.

A few more traffic policemen on the beat would ease Sudbury's traffic problem. Meanwhile, let men be men and correct alleged abuses and still retain their identity.—Ontario Intelligencer.

LONG TRAIN DELAYS EXPLAINED

Many people who ride on trains are puzzled by the schedules and time tables set up for the snorting iron borses. There seems to be little rhyme or reason to travel at high speeds and then stop for 20 minutes or more, consequently arriving minutes behind the announced time.

A recent leaflet issued by the Canadian National Railways and entitled "What Are We Waiting For?" answers this problem fairly satisfactorily

Trains, like other mechanical devices require servicing at regular intervals and periodic checks along the route to help to ensure the comfort and safety of passengers. A man goes along the train tapping the wheels with a hammer. This man is known as a

the wheels with a hammer. This man is known as a "car knocker" and his job is to discover any cracked wheels. Then journal boxes must be inspected for signs of over-heating and oil applied where necessary. In the summer, the train is visited by an ice man who renews the supplies of ice for air conditioning systems and for dising cars. In addition, brake systems are tested and car connections are inspected. The engineer must make a routine check of his locomotive and he may have to take on coal and water ductor too is busy, and must register the ti

While the railway explanation for these long stops is a good one, many passengers will still become impatient with what seems to them to be unnecessarily long delays.—Orillia Packet and Times

SPEED COSTS MONEY

Excessive speed not only endangers life but it also hurts the pocketbook. Reduced speed can cut driving costs. At the pocketbook level driving costs go up every time the accelerator goes down. When speed is increased from 40 to 65 miles an hour, gasoline is increased from a 100 to 60 mines an nour, gasoine costs jump almost 30 per cent. Cost of oil consumed goes up almost four (times when speed is Increased from 40 to 65 miles an hour. At the same time, the cost of wear and tear on tires is two-and-one-half times greater at the higher speed. The increased seriousness of accidents at higher speeds is indicated by the records for 1961. In Ontario cities the "fatal rate" (fatal accidents per 100 accidents of all types reported) was 0.7. On the Queen's Highways, the corresponding rate was 2.4, or more than three times as high.—Niagara Falis Review

Make It a Holiday Not a Horror Day

The increased likelihood of death and injury is a matter of vital concern to all users of the highway and must be offset by good judgment, courtesy, and extra care-

REMEMBER:

- ... Watch out for children
- ... Drive at a reasonable speed-not too fast
- ... Keep in your own traffic lane
- ... Don't pass on curves or hills
- ... Be courteous to others

Let us all combine our efforts to keep the week-end free from accidents.
